

Maxos accessories

9MX056 EP BK SET

Maxos accessories, Normal, 9MX056 | ACC MAXOS, Czarny

The swivel device is a versatile mechanical connecting device for Maxos TL-D and TL5 light-lines and enables variable angles between the light-lines. The minimum angle is 45 degrees. Due to its attractive design it is often used in application areas such as shops, schools and museums. Up to four light-lines can be connected with one swivel device. The housing is made of plastic, with a white or silver coating, and with inner supporting elements made of steel. If needed, the swivel device can accommodate lighting control sensors, loudspeakers, etc. It is pre-mounted with an adjustable quick hanger with a 1.25 m steel suspension wire. One dedicated coupling piece (9MX056 CP-SD WH/SI) per trunking section is necessary to connect the trunking to the swivel device. Electrical components for mains feed-through have to be ordered as required.

Dane produktu

Eksploatacja i połączenie elektryczne	
Klasa ochrony IEC	-
Mechanika i korpus	
Kod stopnia ochrony	-
Kolor akcesorium	Czarny
Waga netto (szt.)	0,033 kg
