

Maxos fusion

LL512T 4x2.5+2x1.5 Gen2 SI 1PCS

LL512T | Maxos fusion Rail

Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

Product data

| General Information | |
|--------------------------|---------------------------------|
| Service Tag | Yes |
| Value ladder | Specification |
| Mechanical and Housing | |
| Net Weight (Piece) | 1.560 kg |
| Approval and Application | |
| CE mark | Yes |
| EU RoHS compliant | Yes |
| Product Data | |
| Order product name | LL512T 4x2.5+2x1.5 Gen2 SI 1PCS |
