LL500E | Maxos fusion Electrical

Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

General Information

Service Tag	Yes
Value ladder	Specification

Operating and Electrical

Input Voltage	- V
Line Frequency	- Hz
Protection class IEC	Safety class I

Mechanical and Housing

Overall length	212 mm
Overall width	115 mm
Overall height	97 mm
Dimensions (height x width x depth)	97 x 115 x 212 mm
Material	Steel
Ingress protection code	IP20 [Finger-protected]
Mech. impact protection code	IK02 [0.2 J standard]
Accessory colour	White
