

Maxos fusion, Accessory

Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

General Information

Service Tag	Yes
Value ladder	Specification

Operating and Electrical

Protection class IEC	Safety class I
----------------------	----------------

Mechanical and Housing

Material	Steel
Ingress protection code	IP20 [Finger-protected]
Mech. impact protection code	IK02 [0.2 J standard]
Accessory colour	White
Net Weight (Piece)	1.080 kg

Approval and Application

CE mark	Yes
EU RoHS compliant	Yes

Product Data

Order product name	LL500E H4 SR2DALI Gen2 WH
Full product name	LL500E H4 SR2DALI Gen2 WH
