ZRS700 SMS SUSP SET L1500 (SKB34-1)

3-circuit Square RCS750, Accessory

The Philips 3-circuit square track system consists of an anodised aluminium profile in natural anodised or painted white in lengths of 1, 2, 3 and 4 m. It contains four electrical conductors allowing easy creation of any required configuration: horizontal or vertical, recessed or surface-mounted, on the wall, on free-standing panels or floating. All luminaires have their separate power supply and can be switched selectively by phase or by circuit. Because the luminaires are easy to move, by simply clicking them in place in the adaptor on the track, changes in the lighting and presentation can be made very simply. All 230V projectors in the Philips range can be installed on this track system. All the associated accessories are common to both the surface-mounted and recessed models and guarantee a good electrical and mechanical connection.
