

Group Cabinet Control

LFC7520 AmpLight Switch

Philips Group Cabinet Control enables remote grouping, monitoring, and controlling of diverse outdoor luminaires. Customers can control their lighting installations, through a retrofitted modular cabinet solution at the electrical cabinet. Supports optimized energy consumption and manages KPIs better. The solution autonomously executes complex tasks based on the configurations. The Controller can automatically switch between different available communications carriers to provide stable and reliable communications to Interact application(s).

Warnings and Safety

- Refer to Documentation portal for all technical documents (<https://www.partner.portal.signify.com/>)
- Check the local LTE band applicable before placing an order for the controller
- No UL certification in Gen3 controller and modules
- Update forecast for Gen3 in Koolog tool to ensure on-time delivery for projects

Product data

Mechanical and Housing			
Net Weight (Piece)	0.064 kg	Material Nr. (12NC)	913700341203
		Numerator - Quantity Per Pack	1
		EAN/UPC - Product/Case	8727900947540
		Numerator - Packs per outer box	60
		EAN/UPC - Case	8727900947557
