Note: Due to continuing product improvements, Ledalite reserves the right to change the specifications without notice. Exceptions apply, not all options available with every configuration.

- Nominal values within a range. Some lumen packages not available in all configurations (6), consult photometry data for CRI/CCT, lumens & distribution of chosen configuration.
- Not all wiring types are available with all configurations. Consult Ledalite for a complete list of available options.
- 347V only available with E - Advance Xitanium 0-10V (1%) driver option. GTD not available with sensors, 347V, and only with E, D, & H drivers
- Interact Pro options may require an IRT9015 Interact commissioning remote or other separate controls hardware by Signify.
- Other options not shown here may also be possible via a custom request, please consult factory. Extended lead times and minimum order quantities may apply.
- Integral Battery Pack, Lutron Vive, and Lutron Athena options are limited to 4500lm max. Consult factory for alternatives if higher lumen packages are required with a Battery Pack

- Aircraft cable suspension length is from ceiling to top of luminaire. Single point suspension length is from ceiling to mono point gripper. Standard power cord is white. Black or clear power cords available on request. Standard canopies are white. A1, A2, A3 & A5 canopies can be powder coated to match fixture or ceiling color on request.
- Aircraft cable suspension length is from ceiling to top of luminaire. Single/Monopoint suspension length is from ceiling to mono point gripper and requires a minimal additional 43.5" of suspension length (included) from the luminaire to the mono point gripper.

DLC Note: Not all product variations listed on this page are DLC qualified. To ensure that a specific model is qualified, visit www.designlights.org/search

DecoForm Architectural Recessed & Suspended

Recessed Dimensions

DecoForm Architectural Recessed & Suspended

Recessed Dimensions (continued)

Suspended Dimensions

Mounting details

Recessed Flat T-Grid (Standard)

Integrates with most common T-Grid types. Works with 9/16" and 15/16" flat T-Grid ceilings.

Recessed Slot T-Grid

Can be used with slot T-Grid ceilings. For 9/16" slot T-Grid ceilings, fixture will sit 5/16" above bottom of T-Bar.

Suspended Multi-Point or Single-Point

Available in multi-point (4 cables, 4 ceiling mounts) or single-point (4 cables, 1 ceiling mount) options for hard/inaccessible or T-Grid ceilings.

Single-point mount requires an additional 43 3/8 to 57 15/16" [1101-1471mm] of total suspension length for the 4 cables of the luminaire to converge to the single-point gripper.

Total suspension length = suspension length (per the order guide) + convergence length (adjustable between 43-3/8" to 57-15/16").

DecoForm Architectural Recessed & Suspended

Top Tile details

Available from Ledalite or 3rd parties

DecoForm works with either 20.5"x20.5" or 23.75"x23.75" square tiles up to 0.5" thick and no more than 5 lbs in a variety of materials. Ledalite offers a selection of Acoustic, Acrylic, and Metal backings.

When using 3rd party or customer supplied tiles it is the customer's responsibility to ensure the installation complies with all local and national building codes.

DecoForm Architectural Recessed & Suspended

Specifications

Optical System

Silk – Lambertian: A diffuse one-piece white acrylic lens delivers a flawlessly uniform luminous surface with performance typical of troffer type lighting applications. The same optical system is used on both Recessed and Suspended models.

Housing

20 gauge cold-rolled steel, pre and post painted.

Finish

Main housing consists of an electrostatically applied, thermally cured polyester powder coat sandtex finish. Recessed color is white. Suspended outer housing color can be used with all standard Ledalite paint colors, including custom options.

Top Tiles

General notes: Top Tiles provided by Ledalite at a nominal size of 20.5"x20.5" square. Recessed model can accept both 20.5" square tiles or 23.75" square tiles so that standard 2'x2' type ceiling tiles or materials do not need to be cut or modified to be placed on DecoForm.

When cutting ceiling tiles (which may void warranty of tile) is required due to plenum or installation requirements – a metal tile such as DFT0400 can also be used as a template.

Customer supplied Top Tiles not provided by Ledalite can be used on DecoForm. Is not recommended to use any breakable materials such as glass. Top Tile must not exceed maximum 5lbs (2.2 kg). Refer to installation sheets for more details.

Acoustic top tiles: DecoForm Acoustic tiles are ½" (12mm) thick and have an NRC (Noise Reduction Coefficient) of 0.45 to 0.95 (scale is 0 to 1). Material is 100% PET.

Acrylic top tiles: Can be used with or without a sheet metal backing (provided by Ledalite) for different aesthetic and functional purposes. Refer to national and local building codes as to what is appropriate. In most applications a sheet metal backing is recommended for Recessed products inside a plenum, and optional for non-plenum and suspended applications.

Mounting

Recessed: Product is compatible with NEMA Type G, NFG, NFSG, and SS grid ceilings. Compatible with 15/16" lay-in acoustical ceilings using exposed grid suspension (NEMA type G). For 9/16" slot T-grid ceilings, fixture will sit 5/16" above bottom of T-grid system. Integrated tabs are provided for compatibility with different T-Grid heights and fastening locations. Optional drywall trim mounting frame can be fastened to a wood frame or with hangar wire. Continuous row mounting not available with drywall trim mounting frames.

Suspended: Available as Multi Point Mount (4 mounts) and Single Point Mount (1 mount). Single point mount requires an additional 4'-2" suspension between the luminaire and the mono-point gripper. It is not recommended to use Single Point Mounting near any air flow as the product can sway or twist. Mounting height is fully adjustable to the maximum length of the aircraft cable suspension chosen.

Weight

Size	Typical	Maximum
2'x2', Recessed	12 lbs.	15 lbs.
2'x2', Suspended	21 lbs.	24 lbs.

Electrical & Servicing

Fixtures are factory pre-wired and tested for all circuits and emergency battery packs where specified. Drivers are field serviceable and replaceable from the side of the fixture. Wire knock-outs available on both ends of the driver box for field-installable mains and dimming thru-wiring across multiple fixtures.

Optional armored cable flex whips are available on Recessed versions in 6' lengths (option code P).

Integral Battery Packs and GTDs

Bodine Battery Pack, 90 min, 10W, Class 2 rated output. Battery pack lumen output = 10W x luminaire efficacy x 1.1. Typical output: 1300lm.

Bodine GTD (generator transfer device) is for use with a generator or central inverter. Requires connection to an emergency source derived from a UL 1008 Listed transfer switch.

Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11:

L_{80} (12k) >72,000 hrs (Reported methodology).

The below calculated lifetime represents estimations commonly used. PS-10-18: IES Position on LED Product Lifetime Prediction, explains proper use of IES TM-21 and LM-80.

L_{70} 135,000 hrs (Calculated).

Source Color

LEDs rated for color rendering of:

$CRI R_a \geq 92$, $R_g \geq 56$, $G_g \geq 98$, $C_g \geq 92$

IES TM-30-18 : $R_f \geq 90$, $R_{f,h1} \geq 88$, $R_g \geq 98$, $R_{cs,h1} \geq -5\%$

Detailed SPD and TM-30-18 reports are available on the last page of this spec sheet by clicking the **PDF** text in the **Photometry Report** column of the photometric performance summary tables.

Fixture to fixture color accuracy within 3 SDCM.

Environment

Rated for dry or damp locations in operating ambient temperatures of 25±5°C (77±9°F).

Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur-based chemicals, petroleum-based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum-based solution or other contaminants are not covered under warranty. Not suitable for natatorium environments.

Warranty

Standard 5-year luminaire limited warranty including LED light engine and driver. Warranties up to 10-years are available upon special request. Visit www.signify.com/warranties under "Indoor Professional Luminaires" for more information.

QuickShip

10-day QuickShip available for hundreds of configurations when requested at ordering time. This service is offered at no additional charge. More information available [here](#).

Drivers

Class 2 rated output. Lowest dimming level shown in brackets. Consult Ledalite for other available drivers or custom requests.

Static White 120-277V

- Advance Xitanium 0-10V (1%)
- Advance Xitanium DALI-2 D4i (1%)
- Advance Xitanium SR (Sensor Ready), DALI-2 D4i (1%, Dim-to-off)
- Advance Xitanium 0-10V + Aux (1%, Dim-to-off)
- Lutron EcoSystem LDE1 (<1%, Soft-on, Fade-to-Black)

Static White 347V

- Advance Xitanium 0-10V (1%)
- Advance Xitanium SR, DALI-2 D4i (1%) – **contact factory**

Controls

DecoForm is designed for wireless radio node type integral controls which are hidden from normal view. Daylight and occupancy type controls can be placed in a remote location and used with a suitable integral fixture driver (i.e. 0-10V, DALI, SR, EcoSystem). Detailed specification of controls can be found on the following pages of this spec sheet. Ordering codes shown in brackets. Many 3rd party control solutions can be used separate of the luminaire when the correct driver is specified. Consult Ledalite for other integral sensors, remote sensors, and custom requests.

Integral Wireless & Connected Controls

- Interact Pro Radio Node (RA)
- Lutron Athena Node AWRN (AR)
- Lutron Vive Node VRF (VR)

WELL v2 Building Standard

DecoForm luminaires contribute towards satisfying the following features under the WELL v2 Building Standard:

L07: AccuRender CRI 90 standard LED boards with high performance Advance Xitanium drivers (or optional drivers) to manage color quality and flicker

L08: When specified with Interact or when tied to a 3rd party control system.

DecoForm Architectural Recessed & Suspended

Controls Options*

Interact Radio Node for Standalone, Gateway and Gateway + IoT tiers (RA)

- RA is a connected radio node supporting wireless mesh connectivity.

Interact sensor for Standalone, Gateway and Gateway + IoT tiers (CS)

- CS is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor can operate in a standalone mode or in a gateway mode.
- Interact includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro app (Android or iPhone) & Bluetooth connectivity. The app provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway.
It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote onsite to identify and group devices together.
- Compatible with UID8465/10 or UID8465/50 wireless dimmer switches, wireless dimmer switch, SWS200 wireless scene switch, wireless occupancy sensor (OCC0100A/02 BP Sensor WH) and wireless daylight /occupancy sensor (OCC0101A/02 DL BP Sensor WH).
- For more information on Interact visit:
www.interact-lighting.com/en-us/what-is-possible/about-interact

Interact sensor bundles for Gateway + IoT tier (SB)

- SB option, in addition to occupancy and daylight sensing, supports advanced IoT capabilities such as people estimation analysis, desk level temperature & humidity sensing, noise classification, and Bluetooth Low Energy (BLE) beacon.
- Compatible with UID8465/10 or UID8465/50 wireless dimmers switches, SWS200 wireless scene switch, wireless occupancy sensor (OCC0100A/02 BP Sensor WH) and wireless daylight/occupancy sensor (OCC0101A/02 DL BP Sensor WH).
- Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Requires compatible gateway and internet connectivity for commissioning. For more information, visit: www.interact-lighting.com/office

Tunable White & BioUp

- Tunable white options are available with Interact wireless, Lutron Athena wireless, and 2ch 0-10V wired drivers. Please inquire about BioUp options and driver options such as DALI-2 DT6 or DMX control (extended lead times may apply).
- Signify tunable white solutions are designed to help maximize the influence of lighting on your daily life.
- Signify BioUp helps support daytime circadian rhythm for engagement during the day and good sleep quality at night.
- Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms.
- Scene setting via lighting pre-sets based on various combinations of lighting color temperature and intensity.

- Luminaire photometry has been conducted in accordance with IES LM-79-08. IES files can be downloaded by clicking the links in the table above, or online at ledalite.com.
- Unified Glare Rating (UGR) is calculated in accordance with CIE 117-1995. Reference conditions of 4Hx8Hx1H and reflectances of 70/50/20% have been applied using the procedure described in CIE 190-2010.
- For Tunable White, all IES files use 2700K data. Photometry Reports reflect the appropriate performance at the nominal CCT chosen.
