

Wireless connectivity for outdoor lighting control. A plug-and-play device that transforms any streetlight into an individually controllable, remotely managed luminaire.

Cellular CT nodes

CityTouch is a secure, connected lighting management platform that is helping cities become more livable, efficient and sustainable. Your existing luminaires can also be made CityTouch ready with a node or connector kit

Benefits

- Easy to install with different type of receptacle (such as Zhaga, Nema or 20mm conduit)
- Cellular based for reliable wireless technology
- Firmware upgrade without impact on light operation
- Future-proof: scalable network and upgradeable over the air

Cellular CT nodes

Features

- Retrofit light controls for LED Luminaires with ZHAGA or NEMA socket or 20MM Conduit
- Automatic commissioning: each node automatically connects to the Interact City system once installed
- Built in GPS for accurate positioning and auto location on map
- Built in light sensor to prevent day burning
- Luminaire tilt notification build in
- Built in security

Application

- Road and Street
