ClassicStreet - Echoing the past, shaped for the future

ClassicStreet brackets

Recalling the iconic beauty of 20th-century street lanterns, ClassicStreet combines elegant design with the subtle details of heritage luminaires while meeting today's urban lighting requirements. Though echoing the past, the ClassicStreet luminaire is very much shaped for the future. Its gently curved design, together with dedicated brackets and poles, creates a contemporary look that beautifies our cities and creates distinctive and warm night- and daytime ambiances. Not only in historical and traditional architectural settings, but also in more modern urban environments too. Designed around its LED engine, ClassicStreet delivers outstanding levels of lighting and energy performance.

Benefits

- Distinctive contemporary design inspired by classical complete street-lighting sets
- Fits both traditional and historical architectural settings as well as more modern environments
- Dedicated interfaces with ClassicStreet luminaire for optimum design integration and installation

Features

- Available in post-top and suspended versions
- Dedicated ClassicStreet brackets and poles
- Compatible with all Signify standard and advanced public lighting systems
- Optimized optics to deliver efficient and comfortable lighting levels

ClassicStreet brackets

Application

- City centers
- Roads and streets
