Ultra efficient panel

GreenPerform Panel Ultra Efficient RC200B

GreenPerform ultra efficient panel RC200B delivers max 180lm/w system efficacy which significantly brings the energy saving and reduces the carbon dioxide emission. By means of its unique light engine design, RC200B provides excellent uniformity too. Both 600x600mm and 300x1200 sizes are provided to cater for most of the office applications.

Benefits

- Ultra efficient lm/w brings significant energy saving
- Excellent light surface uniformity
- Long time saves maintenance cost

Features

- Max 180lm/w system efficacy
- Unique LED light engine with ultra efficient LED
- 50K hours lifetime

Application

- Office
- Meeting room
- Training room
- Focus room
