

Aura

As an innovative troffer, CoreView Pro RC430V uses indirect and direct light output to reach UGR19 without using heavy and big glare control plates. The central module can be easily replaceable for future maintenance. The light from the central light module can be controlled separately to fit multiple applications. BioUp technology provides better well being for the people in indoor environment.

Benefits

- · Slim and nice look and feel
- · Easy maintenance on site
- · Fit multiple applications for office, healthcare
- · Support better well being for people in indoor

Features

- · Unique light module design with indirect and direct light to reach UGR19
- · Replaceable light module
- · Adjustable up and downward light output ratio
- \cdot BioUp technology enabled

Application

- Office
- Meeting room
- Healthcare
