## LyteProfile 4"

## P4S Square Downlight \& Wall Wash

LyteProfile downlights and wall washers provide a perfect balance of functionality with glare control. The robust and versatile UniFrame frame-in kit makes changes and updates easy to manage and install. High optical efficiency reinforced with Accurender technology provides an optimum balance of performance and quality of light. Ideal for use in a variety of applications including open office, institutional, healthcare, and retail.

Standard luminaire $=$ Frame + Engine/Trim + Accessories (optional)
Buy American Act of 1933 (BAA)** Compliant luminaire* $=$ Frame-BAC + Engine/Trim-BAC

* BAA compliance requires that BAC option be selected for each of frame and engine/trim. Frame and engine/trim will be ordered/ shipped together (ex: 4RN-BAC-P4SDL20935WCDZ10U-BAC). Accessories (optional) are not currently BAA-compliant.

Accessories (Not currently BAA-compliant - learn more on page 2)

| SBA | Interact Ready System Bridge Accessory with integral occupancy and daylight sensor (compatible with all 0-10V options, see SBA spec sheet) ${ }^{10}$ |
| :--- | :--- |
| CAEM6 | Field installable Bodine BSL6 6W battery pack with self-test/self-diagnostic for use with new construction frames, 120-277V |
| T347-75VA | $347: 120 \mathrm{~V}$ step-down transformer for non-IC (N) frame only (see page 2 for details) |

1. Emergency (EM6) frame is compatible with reflector mounted test switch when light engine is ordered with IEM6 (not compatible w/347V).
2. Chicago Plenum (LC) is not available for Buy American Compliant (BAC) configs.
3. Lensed wall wash (LW) style only available with Wide (W) beam ( 2500 Im max).
4. Not available with AirSeal (A) frame.
5. Not available with AirSeal (A) frame. Available with CL, CC, and CD reflector finishes only.
6. Consult factory with ETO request for black (B) flange for all styles.
7. The 500 Im (05) option is not available.
8. Linear driver profile. See dimensional data following.

Specify only with non-IC (N) frame, not for use with LC or EM6 options.
9. Retrofits select legacy Lightolier luminaires. See pages 2 and 6 for details.
10. Requires IRT9015 IR remote and Interact Pro App for commissioning (requires above ceiling access).
** Failure to properly select the "BAC" suffix could result in you receiving product that is not BAA compliant product with no recourse for an RMA or refund. This BAC designation hereunder does not address (i) the applicability of, or availability of a waiver under, the Trade Agreements Act, or (ii) the "Buy America" domestic content requirements imposed on states, localities, and other non-federal entities as a condition of receiving funds administered by the Department of Transportation or other federal agencies.

## Square Downlight \& Lensed Wall Wash

## Features

## Optics

- Provides a $60^{\circ}$ cutoff (physical and reflected)
- Available in wide $\left(85^{\circ}\right)$ and medium $\left(70^{\circ}\right)$ beam options.
- Spun and anodized reflectors available in specular (clear), semi-specular (comfort clear and diffuse finishes. Also available in white and black painted finishes.

## Quality of light

- Consult factory for RAL finishes
- Color consistency: 2 SDCM
- 90 CRI minimum (Accurender)

## Construction (New Construction)

- Galvanized stamped steal for dry / plaster ceilings.
- Pre-installed telescoping mounting bars (13"-24")
- Frame accommodates C- channel, black iron, and $3 / 4$ " EMT for mounting distances greater than 24 " between joists.
- Manufactured from 20 gage galvanized steel construction with rolled edge aperture to guide cutting tools for perfect hole cutting.

## Max ceiling thickness is $1.5^{\prime \prime}(38 \mathrm{~mm})$.

Patented install Mounting frame

- Pre-installed mounting bars allow for fast and tool-less install into T-grid \& hat channel ceilings
- Close-cut aperture design eliminates an undesired gap between ceiling material and reflector.
- Simple plug-and-play connection between frame and light engine from below the ceiling allows for:
- Easy upgrades
- Technology changes
- Repairs and troubleshooting

## Retrofit

- Easily updates legacy LyteProfile LED downlights to the latest technology. Includes light engine, trim, and driver mounted on cover plate that mounts to previous generations of LyteProfile LED luminaires. Order with R option code at end of light engine/trim catalog number.

## Dimming

- Advance $0-10 v 1 \%(Z 10)$ logarithmic curve is standard. Specify D2O for factory-set dim-to-off function (consult factory for linear dimming curve).
- Lutron LDE1 (L1) EcoSystem 1\%
- Electronic low voltage (E) offers
forward or reverse phase dimming

## Light engine

Quick connect power pack allow for easy installation and replacement from below ceiling with no need for additional wiring. This allows for:

- Frame and ceiling installation to be performed while still finalizing details such as lumen packages, CCT and control type.
- Easy replacement of electronics at end of life with minimal wasted material and labor required.
- Ease and upgradability of technology.
- Lumen Maintenance: L80 at 60,000 hours.
- 347V light engines are Z10 dimming only and include dedicated 347 V driver. For 347 V non-Z10 dimming, order T347-75VA field-installed stepdown transformer accessory.

## Emergency

Bodine BSL6 6W battery pack with self-test/
diagnostic functionality. Factory or field mounted to frame.

- For trim with integral emergency test switch, order light engine with IEM6 option (ex: P4SDL20935WCDZ10UIEM6).
DL style only.
- For remote ceiling mounted test switch, order standard light engine (ex: P4SDL20935CDZ10U). Optional accessory ceiling mounting plate available (CAEM6TSCP) for remote mounted test switch.
- Refer to Calculite-LyteProfile-EasyLyte Emergency Battery Pack specification sheet for more details.

## Options and Accessories

Sloped ceilings: Compatible with sloped ceiling adapters (see SCA spec sheet).
Field Installed Emergency: Refer to Calculite-LyteProfile-EasyLyte Emergency Battery Pack specification sheet for more details.

- CAEM6: Field install EM6 kit with Bodine BSL6 6W battery pack with self-test/self-diagnostic, mounts to new construction frames. Includes remote ceiling plate for test switch. To mount test switch to trim for new construction frame, order light engine with IEM6 option code (e.g. P4SDL20935WCDZ10UIEM6).

CAEM6TSCP: Ceiling cover plate for remote mounted EM6 test switch. 1/2" ( 25 mm ) hole, $43 / 8^{\prime \prime}(109 \mathrm{~mm}) \times 23 / 4^{\prime \prime}(69 \mathrm{~mm})$ rectangular. Includes two mounting screws.
T347-75VA: Field installable 347:120V 75VA stepdown transformer, attaches to knock out on frame junction box, for use with non-IC (N) or remodel $(R)$ frames.

## ENERGY STAR ${ }^{\oplus}$ exceptions

- 5001m configurations
- Black finishes

Labels and Listings

- cULus listed for wet locations
- CCEA (frames with *LC suffix)
- ENERGY STAR ${ }^{\oplus}$ certified
- RoHS certified

## Warranty

5 year limited warranty
Visit Signify.com/warranties for more information on Signify's standard 5-year limited warranty on complete luminaire systems.

## P4S LyteProfile 4"

## Square Downlight \& Lensed Wall Wash

## Wireless controls options

## Interact

- SWZCS is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor works in the standalone mode (similar to SpaceWise) when configured without a gateway or in a cloud connected mode if a compatible gateway is used.
- Interact includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro App (Android or iPhone) \& BlueTooth connectivity. The App provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway. It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote on-site to identify and group devices together.

## Compatible with:

- SWS200 \& UID8465 wireless scene switch
- Battery powered IP42 presence sensor OCC sensor IA CM WH 10/1
- Battery powered IP42 presence \& daylight sensor OCC-DL sensor IA CM IP42 WH
- LCN3110: battery powered IP65 presence sensor, OCC sensor IA CM IP65W
- LCN3120: battery powered IP65 presence \& daylight sensor, OCC-DL sensor IA CM IP65 WH
- For more information on Interact visit: interact-lighting.com/interactproscalablesystem

## Radio only sensor (RA or RADIO)

- Integral RA or RADIO only sensor simply enables wireless mesh connectivity to the luminaire without any occupancy or daylight sensing.
- Ideal for applications where sensing functionality is managed by other Interact devices and the luminaire only needs to have wireless connectivity.
- Interact includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro App (Android or iPhone) \& Bluetooth connectivity. The App provides flexibility to choose between a gateway or non-gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway. It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely, identify and group devices together onsite
- Compatible with SWS200 and UID8465 wireless scene switch, wireless Occ sensor (OCC SENSOR IA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1).
- For more information on Interact visit: interact-lighting.com/interactproscalablesystem

## Sensor bundle (IAOSB or SB)

- A wireless loT connected lighting solution for large enterprises that span across multiple floors buildings and require multiple gateways.
- View all your projects under one dashboard and easily compare insights from multiple projects in one view.
- Compatible with SWS200 wireless scene switch, wireless Occ sensor (OCC SENSORIA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1) and wireless Occupancy or Daylight \& Occupancy sensors available. Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- IAOSB or SB option in addition to occupancy and daylights sensing supports advanced loT capabilities, such as people estimation analysis, desk level temperature \& humidity sensing, noise classification, and BLE beacon.
- Requires compatible Gateway and internet connectivity for commissioning.
- For more information, visit: interact-lighting.com/interactproscalablesystem

## Emergency Options (ER100)

- Power Sensing (factory default) Recommended UL924 option requires unswitched power sense line, absence of voltage on the normal circuit triggers luminaire to $100 \%$ output.
- Power Interruption Detection (field option) Detects AC power interruption >30ms triggers 90 minute emergency mode with luminaire at 100\% output.

Interact supported sensor option codes across Genlyte product lines

## P4S LyteProfile 4"

## Square Downlight \& Lensed Wall Wash

## AccuRender Technology (CRI 90+)

The right light brings colors to life. Our new AccuRender technology helps ensure colors are rendered more accurately and consistently, while doing so as efficiently as CRI 80 products.

Standard CRI 80
Good color rendering and high efficacy

Standard CRI 90
Better color rendering and low efficacy

AccuRender
Best color rendering, color preference and high efficacy

## Enjoy design flexibility

Full range of products and options:

- Available soon in across Lightolier portfolio for application flexibility
- Multiple color temperatures (CCTs) and lumen packages offered

## Promote savings

High efficacy, with no penalty:

- Energy efficacy compares well to conventional 80 CRI
- Up to $25 \%$ more energy savings vs competitor 90 CRI ${ }^{1}$
- Helps meet Title 24 requirements

## Show your true colors

## High color rendering:

- True to life colors to help energize your environment and render better flesh tones critical for healthcare hospitality and retail applications.
- $\mathrm{R}_{\mathrm{a}}$ up to $94 \mathrm{CRI} \cdot \mathrm{R}_{\mathrm{f}}$ up to 92 TM-30 $R_{g}$ up to $67 \mathrm{CRI} \quad \mathrm{R}_{\mathrm{f}, \mathrm{h} 1}$ up to $91 \mathrm{TM}-30$
$\mathrm{G}_{\mathrm{a}}$ up to $99 \mathrm{CRI} \quad \mathrm{R}_{9}$ up to 100 TM-30 $\mathrm{C}_{9}$ up to $94 \mathrm{CRI} \quad \mathrm{R}_{\text {cs,h1 }}$ up to $-5 \% \mathrm{TM}-30$

Achieve color balance
Best in class color consistency:

- Promote aesthetic harmony in your space with $\leq 2$ SDCM

## New construction

AirSeal (A)

## P4S LyteProfile 4"

## Square Downlight \& Lensed Wall Wash

## Reflectors

Specular clear (CL): Most specular and most efficient finish, delivers maximum photometric performance but can produce a mirror image effect of the interior space.

Comfort clear (CC): Semi-specular finish that softens the light at the source of the reflector and creates a subtle, even luminance from the reflector cone.

Comfort clear diffuse (CD): Slightly diffuse clear finish, which eliminates iridescence and reduces the mirror image effect inherent with a specular finish.

White ( - ): (matte) Brightest aperture when illuminated and provides the smoothest transition to most ceilings when off (white is only available with a white flange).

Black (BK): Painted matte finish that provides the lowest aperture brightness possible and reduces source identification in a ceiling significantly.

## Flanges

White ( - ): (matte) Provides the smoothest transition to ceilings when off.

Black (BK): Painted matte finish that provides the lowest aperture brightness possible.

Aluminum (A): Painted aluminum finish to more closely match visual appearance of anodized inner trim surface.
