

Specifically designed to blend high performance LED technology with versatile options to suit any area, **VersaForm** allows you to enjoy the latest LED energy efficiencies in concert with your unique style, and as your needs evolve, it's simple to change or upgrade with our unique detachable light engine.

**This product family is to be discontinued. Please consult factory for details.**

- Nominal values within a range. Consult photometry data for CRI, color temp, lumens & distribution of chosen configuration.
- Not all wiring types are available with all configurations. Consult Ledalite for a complete list of available options.
- Drywall Kits and Flex Whips are not available with "SI" Discrete Surface Mount luminaires.
- Legacy coding for wiring options "7 - 1cct dimming" and "N - 1cct Dimming + Battery Pack" are exact equals to "1" and "B" options shown in the ordering guide.

If no option is required, leave blank.

## 2'x2' & 2'x4'

### Specifications

#### Optical System

The optical frame assembly consists of integrated LED arrays edge lighting a light guide panel in order to deliver uniform controlled light through a lower lens. The optical frame ends are constructed from die-formed cold-rolled steel, assembled together with extruded aluminum profiles in a sturdy frame. The frame is hinged (side marked) to allow easy access to the inside of the fixture. Maintenance can be performed from below the ceiling.

#### Finish

Housing and frame painted, high quality, powder coated matte white only.

#### Housing

Die-formed, post painted, 22 gauge cold-rolled steel. Wire entrance with additional knock-out available on top side for electrical connections.

#### Weight

Maximum 28lbs (2x4); 15lbs (2x2).

#### Electrical

Factory pre-wired with driver safety disconnect.

#### Mounting

Recessed: Fixtures can be fastened directly to the T-bar grid and/or tied-off to the building structure. Optional drywall kit trim mount can be fastened to a wood frame or with hangar wire. Continuous row mounting not available with drywall kit trim mounts.

Surface: Fixtures can be mounted over recessed junction box and side entry also available.

#### Standard Driver

- Advance Xitanium 0-10V, 1-100%
- Lutron EcoSystem LDE1 with Soft-on, Fade-to-Black, 1-100%

Class 2 rated output.

Consult Ledalite for other available drivers.

#### Standard Battery Pack

Bodine, 90 min, 10W, Class 2 rated output, Battery Pack lumen output = 10W x luminaire efficacy x 1.1. Typical output: 1200lm.

#### Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is: L90(10K) >60,000 hrs (reported methodology). L80(10K) 128,000 hrs (calculated methodology).

#### Source Color

LEDs rated for color rendering CRI >90, R9 >50 and fixture to fixture color accuracy within 3 SDCM.

#### QuickShip

Available for certain configurations upon request. Visit [www.signify.com/en-us/brands/ledalite/quickship](http://www.signify.com/en-us/brands/ledalite/quickship) for more information

#### Wiring

Recessed: Optional flex whips are supplied in 6' lengths.

Surface: Standard wiring configurations available.

#### Approvals

Certified to UL, CSA, and IES standards. City of Chicago Approved CCEA (housing option C).

#### Warranty

Five-year luminaire limited warranty including LED boards and driver. See [www.signify.com/warranties](http://www.signify.com/warranties) for details.

#### Environment

Rated for dry & damp locations in operating ambient temperatures of 0-25°C (32-77°F). Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum based solution or other contaminants are not covered under warranty.
