

### INSTALLATION:

- 1) TURN POWER OFF.
- 2) Make luminaire wiring connections to supply wires (by others.)
  - Green to Green
  - White to White
  - Black to Black
- 3) If luminaire is equipped with twist-lock photo receptacle, install photoeye (by others.)
- 4) Slip luminaire's post fitter onto pole and ensure wires are not pinched.
- 5) Orient luminaire by turning Philips logo on post fitter opposite the "STREET SIDE".
- 6) Evenly tighten post fitter set screws to 15 N-m (130 in-lb.)
- 7) Power to luminaire may now be turned on.

#### FITTER INSTALLATION - SEE NOTE 6

#### HOUSE SIDE/STREET SIDE - SEE NOTE 5

This fixture is intended for installation in accordance with the National Electrical Code and local code specifications. Failure to adhere to these codes and instructions may result in serious injury and/or damage to the electronics and void the warranty. These instructions do not purport to cover all details or variations in equipment, nor to provide for every possible contingency related to installation, operation, maintenance, or mounting situation. Should specific problems occur that are not addressed by these instructions, contact your Sales Representative or distributor for assistance. Retain these instructions for future reference.

### **SAFETY WARNING:**

**ALWAYS TURN FIXTURE OFF/DISCONNECT POWER AND ALLOW TO COOL BEFORE PERFORMING ANY MAINTENANCE, INCLUDING RELAMPING AND CLEANING!**

This fixture can become very HOT! The fixture housing and lens, especially if it is glass, can become hot enough to blister hands. Attention should be paid to where the fixture is mounted, particularly if it can be touched by children or pets. To help prevent premature failure, decreased performance, overheating and risk of fire, keep fixture and lens clean and free of leaves, mulch, debris and mineral deposits from water. The fixture and lens can be cleaned using a soft cloth and a solution of mild liquid soap and warm water. Wipe clean and dry with a soft, lint-free dry cloth. Avoid polishing fixture or lens.
