Philips Hue extends Outdoor range to give you more ways to bring your home to life with light

- *Automatically turn on your lights – indoor or out –with the new Philips Hue Outdoor sensor*
- *Create the perfect ambiance for every occasion with the newest outdoor luminaires, now including wall-mounted fixtures and new path lighting*

CES – Las Vegas, Nevada (USA) – Signify (Euronext: LIGHT), the world leader in lighting, is extending its popular collection of Philips Hue Outdoor smart lighting products, to give you more options to transform your home — from feeling welcomed home at your front door to adjusting your backyard’s ambiance for any occasion. The new range includes a variety of wall-mounted outdoor fixtures and path lighting, as well as the battery-operated Philips Hue Outdoor sensor.

“Your home is not only the space within your four walls, but includes your outdoor areas, too. We saw tremendous enthusiasm for our initial Philips Hue Outdoor range and we’re now giving our consumers even more ways to bring their front and backyards to life with light,” said Jasper Vervoort, Business Leader, Home Systems and Luminaires at Signify. “We’re happy to expand our Hue Outdoor range so our users can set the right light for each moment of the day. Most importantly, we’re helping them feel safe and secure at home with powerful lighting options while allowing them to personalize their outdoor ambiance.”

A warm welcome everyday with the Philips Hue Outdoor sensor

Experience the comfort of your lights turning on automatically when you arrive in the dark. The new weather-resistant Hue Outdoor sensor, which is wireless, battery-powered and easy to mount and set up, can welcome you home with light as you approach. Via the Philips Hue app, you can choose which lights – inside or out – go on when someone passes by the sensor, and make it look like someone is always at home.

Place the Hue Outdoor sensor on a flat wall in your garage, around your door or where it matters most in your yard. It has a detection range of 12m (39ft) and an integrated dusk-to-dawn sensor, ensuring that your lights will only turn on when it is dark outside. The sensor (RRP: EUR 49.95 / USD 49.95) will be available for purchase in Europe and North America in February 2019.

The perfect light for any occasion

Your outdoor spaces are an extension of your home, and you now have more choice than ever before to paint your front and backyard with 16 million colors or bright white light. Whether it's welcoming a guest at your front door, enjoying a BBQ on the patio or a party in the backyard, you can add a touch of light and ambiance to every get-together with the new Philips Hue Outdoor fixtures. Create perfect lighting to enjoy these special moments to the fullest.

The newest additions to the range include:

Available in North America and Europe in February 2019

- The **Philips Hue Welcome Flood Light** (RRP: EUR 129.99 / USD 109.99), a wall-mounted fixture in one shade of bright white light
- The **Philips Hue Discover Flood Light** (RRP: EUR 149.99 / USD 139.99), a wall-mounted fixture with White and Color Ambiance light
- The **Philips Hue Eonic family** of wall lights (RRP: EUR 139.99 / USD 129.99 and EUR 139.99 / USD 129.99)

Available in Europe only, in February 2019

- The **Philips Hue Econic pedestal and post** (RRP: EUR 129.99 and 159.99)
- The **Philips Hue Fuzo family** (RRP: from EUR 79.99), which includes a pedestal, a post and three wall lights, with white light.
- The **Philips Impress family** (RRP: from EUR 109.99), which includes three pedestals and two wall lights.
- The **Philips Hue Calla large bollard** (RRP: EUR 149.99, extension available for EUR 119.99), which is a bigger version of the already available Calla path light and has White and Color Ambiance light
