

ModiFly is the new action hero for lighting design. This next generation lighting innovation has it all: contemporary form, infinite design freedom, and undisputed performance. Simple, yet sophisticated, ModiFly has a style that lends itself perfectly for a variety of spaces including open offices, education, and retail environments, where visual comfort and design continuity are essential.

Footnotes:

- Nominal values within a range. Consult photometry data for CRI, color temp, lumens & distribution of chosen configuration.
- Not all wiring types are available with all configurations. Consult Ledalite for a complete list of available options. Tunable White, PoE, and Interact options requires separate controls hardware by Signify.
- T-Grid On-Grid mounts (M6-x) are not available with Quad-Link joints due to weight restrictions.
- Version code for specification purposes only, product will ship as "MFOS". Bi-links can be articulated 180 degrees on site to create unique open patterns using linear modules.
- See Page 3 of spec sheet for how to specify patterns.
- Interact Pro is not available with 90CRI/3500K options at 4500 lm/4ft and 4000 lm/4ft
- Aux. Wiring not available on Tunable White, PoE, or Interact configurations.
- Tunable White option is only available with PoE Lighting Controllers.

Continuous rows

With a variety of different length options, continuous rows of ModiFly can be used to fill an open office for comfortable, ambient illumination. The image above shows ModiFly with a static link between modules for continuous rows of luminaires.

Predefined patterns

Shake things up, and modify spaces with ModiFly luminaires to create an endless array of patterns – whether it be pods of pendants or interconnected hexagons in space – ModiFly allows for ultimate flexibility, making lighting the key element of architectural design.

The patterns below are just some of the examples ModiFly has to offer. Choose from one of these, or customize your own pattern.

Triangle

ModiFly suspended

ModiFly articulating links

Harness the ultimate flexibility of on-site articulation of luminaires. Create one-of-a-kind designs with unique shapes and precision angles ModiFly's patent pending design of the factory pre-wired Bi, Tri, and Quad-link systems allow for articulating luminaires on-site, allowing for final touches of angulation to be just perfect.

*Static links apply to continuous runs only; all other links apply to patterns/shapes.

On-site luminaire rotation

With fool-proof angulation, rotation of pendant modules to achieve the look desired... becomes flawless.

Simply match up the markings on the arms of the link to rotate fixture modules 7.5 degree increments (with markings at 15 degrees).

15 degree increment markings to make onsite articulation, easy!

ModiFly suspended

Optical system

The optical system contains arrays of LEDs edge lighting a low profile light guide panel, using total internal reflection to homogenize the sources. The microstructure surface of the light guide optimizes light extraction to create an efficacious direct distribution. Standard distribution is 72% down / 28% up.

Construction

- Housing: Extruded architectural finish aluminum.
- Endcaps: Die-cast aluminum.
- Luminaire Weight: Max weight 3.75lbs/ft, or 15lbs/4ft.

Finish options

- Standard powder coat finish options: Hero Gold, Venom Black, Silver Nova, White, Black, Titanium Silver

Standard drivers

- Advance Xitanium 0-10V, 1-100%.
- Advance Xitanium SR, 5-100% (SpaceWise DT and Interact Pro)
- ETO Ready Lutron EcoSystem LDE1, 1-100% with Soft-on, Fade-to-Black
- PoE Lighting Controller (by Signify)
- Constant Current Class 2 rated output. Consult Ledalite for other available drivers.
- Power Factor: >0.90
- Total Harmonic Distortion: <20%

Standard battery pack

Bodine, 90 min, 10W, Class 2 rated output.

Battery Pack lumen output = 10W x luminaire efficacy x 1.1.

Typical output: 1300lm.

Lumen maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is: L80 > 100,000 hours (reported methodology).

Source color

LEDs rated for color rendering CRI >80, R9 >0 and fixture to fixture color accuracy within 2 SDCM. Available 90 CRI option is rated for CRI >90, and R9 >50.

Mounting

- Standard mounting kits (M1 to M6) are available for drywall, t-grid, and non-accessible ceiling types (see Ledalite Mounting document for details).
- Power and non-power canopies standard finish is white. M1 and M3 canopies can be finished to match fixture color.

Connected systems

SpaceWise DT

SpaceWise is an easy to use, flexible, wireless lighting system. It allows you to create customized light zones in your office space, achieve high savings through LED technology and different dimming options, increase employee comfort through better quality of light and option to personalize light settings. Learn more at: www.philips.com/spacewise

Interact Pro

Interact Pro allows you to control and personalize lighting, and provides data insights for small and medium sized businesses.

With Philips Interact Ready lighting products, you're ready to connect to the cloud-based Interact Pro app without hassle. Learn more at:

www.interact-lighting.com/pro

Interact Office Wired (PoE) & Tunable White

PoE based IoT connected lighting solution for large enterprises that span across multiple floors, buildings and require multiple gateways. Use Interact Office software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics. Learn more at: www.interact-lighting.com/office

Tunable White

Signify tunable white solutions are designed to help maximize the influence of lighting on your daily life. Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms. Learn more at: www.usa.lighting.philips.com/products/product-highlights/tunablewhitetechnology

Validation

- Luminaires are certified for safety to UL1589 and CSAC22.2. No.250.0
- In accordance with CAN ICES-005-A/NEB-005-A and FCC Part 15A
- Listed on DesignLights Consortium® Qualified Products List (QPL)

Environment

Rated for dry or damp locations in operating ambient temperatures 0-30°C (32-104°F). Certain luminaire components may be adversely affected by contaminants. Damage caused by sulfur, chlorine, petroleum based solutions or other contaminants are not covered under warranty. Not suitable for natatorium environments.

Warranty

Five-year luminaire limited warranty including LED boards.
