Signify reports third quarter sales of EUR 1.6 billion, operational profitability of 10.7% and a free cash flow of EUR 152 million

Third quarter 2023
- Signify’s installed base of connected light points increased from 119 million in Q2 23 to 121 million in Q3 23
- Reached the 2025 target for circular revenues in Brighter Lives, Better World 2025 sustainability program
- Sales of EUR 1,649 million; nominal sales decline of -13.8% and CSG of -7.8%
- LED-based sales represented 85% of total sales (Q3 22: 83%)
- Adj. EBITA margin of 10.7% (Q3 22: 10.4%)
- Net income of EUR 83 million (Q3 22: EUR 112 million)
- Free cash flow of EUR 152 million (Q3 22: EUR 135 million)

Eindhoven, the Netherlands – Signify (Euronext: LIGHT), the world leader in lighting, today announced the company’s third quarter 2023 results.

“In the third quarter, we continued to recover our gross margin, which is a 2023 priority. Operating margin and free cash flow growth were in line with our expectations. While we see persistent weakness in China, in the connected consumer and LED electronics businesses, we gained market share in the professional segment, driven by strong demand for connected systems and services. We are also pleased to report that we have been able to bring our Conventional Products division back to its historical performance levels,” said Eric Rondolat, CEO of Signify.

“With the visibility we have into the final quarter, we confirm our guidance for the full year. However, we expect macroeconomic external factors to continue to put pressure on our topline in the quarters ahead. We are well positioned by the cost reduction actions that began earlier this year. Further structural measures will be implemented through Q1 2024 to improve our efficiency, speed of execution, and enhance our focus on the growth opportunities presented by the accelerating transition to ultra-efficient LED and connected lighting technologies.”

1This press release contains certain non-IFRS financial measures and ratios, such as comparable sales growth, EBITA, adjusted EBITA and free cash flow, and related ratios, which are not recognized measures of financial performance or liquidity under IFRS. For a reconciliation of these non-IFRS financial measures to the most directly comparable IFRS financial measures, see appendix B, Reconciliation of non-IFRS financial measures, of this press release.
Brighter Lives, Better World 2025

In the third quarter of the year, Signify was on track to deliver on three of its **Brighter Lives, Better World 2025 sustainability program** commitments:

**Double the pace of the Paris Agreement**
Signify is on track to reduce emissions across the entire value chain by 40% against the 2019 baseline - double the pace required by the Paris Agreement. This is driven by Signify’s leadership in energy efficient and connected LED lighting solutions, which significantly reduce emissions during the use phase.

**Double Circular revenues**
Circular revenues increased to 32%, hitting the 2025 target of 32%. The main contribution was from serviceable and upgradeable luminaires, with a strong performance from Cooper this quarter.

**Double Brighter lives revenues**
Brighter lives revenues increased to 31%, on track to reach the 2025 target of 32%. This was driven by a strong performance from tunable products that support well-being.

**Double the percentage of women in leadership**
The percentage of women in leadership positions decreased to 29%, slightly off track to reach the 2025 target of 34%. Actions to increase women in leadership positions continue, including focused hiring practices for diversity across all levels, and through retention and engagement actions to reduce attrition.

**Outlook**
Signify confirms its guidance for the full year 2023. The company expects an Adjusted EBITA margin of 9.5-10.5% and free cash flow generation at the higher end of the 6-8% range.

### Third quarter

Nominal sales decreased by 13.8% to EUR 1,649 million, including a negative currency effect of 6.2%, mainly from the depreciation of the US dollar, and a positive effect of 0.2% from the consolidation of Intelligent Lighting Controls. Comparable sales declined by 7.8%, driven by persistent weakness in Signify’s end markets.

The Adjusted gross margin increased by 240 bps to 39.7%, reflecting effective COGS management and a positive contribution from mix and price. Adjusted indirect costs as a percentage of sales increased by 160 bps to 30.2%, as indirect costs did not keep pace with lower sales.

Adjusted EBITA was EUR 177 million. The Adjusted EBITA margin increased by 30 bps to 10.7%, driven by gross margin improvements. Both Digital Solutions and Conventional Products improved their Adjusted EBITA margins year on year.

Restructuring costs were EUR 27 million, acquisition-related charges were EUR 3 million and incidental items had a net positive impact of EUR 4 million. The incidental items benefited from a release of tax indemnification liabilities.

Net income decreased to EUR 83 million, mainly due to lower income from operations and higher financial expenses, partly offset by lower income tax expense.

The number of employees (FTE) decreased from 34,273 at the end of Q3 22 to 32,214 at the end of Q3 23. The year-on-year decrease is mostly related to a reduction of factory personnel due to lower production volumes. In general, the number of FTEs is affected by fluctuations in volume and seasonality.

### Third quarter
Nominal sales decreased by 10.2% to EUR 990 million, including a negative currency effect of 6.3% and a positive effect of 0.4% from the consolidation of Intelligent Lighting Controls. Comparable sales declined by 4.3% against a high base of comparison of 12.0% growth in the previous year, as continued strength in professional systems and services was more than offset by softness in indoor professional and horticulture lighting. The Adjusted EBITA margin increased by 50 bps to 11.7%, mainly driven by gross margin recovery.

### Third quarter
Nominal sales decreased by 16.6% to EUR 508 million, including a negative currency effect of 6.3%. Comparable sales declined by 10.3% (Q3 22: -2.5%), as weakness in consumer connected, the OEM business and Klite persisted. The Adjusted EBITA margin decreased by 60 bps to 9.9%, as an improvement of gross margin was more than offset by an under-absorption of fixed costs.

Third quarter
Nominal sales decreased by 25.7% to EUR 145 million, including a negative currency effect of 4.7%. Comparable sales declined by 21.0% (Q3 22: -9.5%), as volumes declined in line with expectation. The Adjusted EBITA margin increased by 700 bps to 21.2%, mainly driven by gross margin recovery and cost discipline.

Other

Third quarter
‘Other’ represents amounts not allocated to the operating segments and includes costs related both to central R&D activities to drive innovation, and to Group enabling functions. Adjusted EBITA was EUR -21 million (Q3 22: EUR -17 million) and EBITA was EUR -15 million (Q3 22: EUR 7 million). EBITA included a negative impact from restructuring costs of EUR 3 million and a positive impact from incidental items of EUR 9 million, which was mainly related to a release of tax indemnification liabilities.

Third quarter
In Europe, comparable sales declined by 10.0%, as most markets declined except Nordics and Italy. In the Americas, comparable sales declined by 7.6%, as solid growth in Latin America did not manage to offset weakness in the US. In the Rest of the World, comparable sales declined by 4.9%, mainly due to continued weakness across most markets except the Middle East, and as China has yet to recover. Global businesses’ comparable sales declined by 10.3%, mainly due to Klite and Fluence.

Third quarter

Compared to June 2023, working capital slightly reduced to EUR 632 million, as lower inventories and higher payables were partly offset by higher receivables and other working capital items. As a percentage of last twelve-month sales, working capital increased by 20 bps to 9.1%.

Compared to September 2022, working capital reduced by EUR 188 million, mainly due a strong reduction in inventories and receivables, partly offset by lower payables. As a percentage of last twelve-month sales, working capital decreased by 180 bps. Including last twelve-month sales pro forma for Fluence and Pierlite, working capital decreased by 160 bps.

**Third quarter**

Compared with the end of June 2023, the cash position increased by EUR 105 million to EUR 689 million, mainly driven by free cash flow generation. Gross debt remained relatively stable at EUR 2,029 million. As a result of the higher cash position, net debt reduced to EUR 1,340 million. Total equity increased to EUR 3,084 million (Q2 23: EUR 2,853 million), primarily due to currency translation results and net income.

Compared with the end of September 2022, the cash position increased by EUR 220 million, while gross debt reduced by EUR 125 million. As a result, net debt reduced by EUR 345 million year on year. At the end of September 2023, the net debt/EBITDA ratio was 1.9x (Q3 22: 1.5x).
